

BMus (Hons) POPULAR MUSIC PERFORMANCE - AUDITION PROCEDURE (2019 entry)

Introduction

Each year, Leeds Arts University recruits a cohort of 36 student musicians to the following principal studies: 12 x vocals (male & female), 6 x keyboard, 6 x electric guitar, 6 x bass guitar and 6 x drum kit.

The audition process is designed to assess your ability in popular music performance, production and composition. Places on the course are offered based on the demonstration of your potential to develop in these areas over the three years of the course.

We welcome applications from international students. Please see the section at the end of this guide about applying from outside the UK.

Overview

The audition is structured as a 25-minute practical audition and interview session conducted by the course leader, and an instrumental/vocal specialist.

The audition process is designed to assess the following:

Criteria	Assessment method
Instrumental/vocal proficiency (equivalent to grade 8 standard)	Practical performance of a set piece
Musicianship	
Energy and presence in performance	
Production skills	Practical performance of your own original song or instrumental composition
Composition skills	<u>OR</u> Practical performance of an existing song, re-arranged by you
Stylistic understanding	Practical performance of set and/or original pieces
General communication skills	Panel Q&A

PART 1:

The first part of your audition is a practical performance. Instrumental and/or vocal performance skills are key to success on the course and assessed at this point.

You should choose **one** of the set pieces from the list below, as appropriate to your instrument/voice.

In the second part of your audition, you will be asked to demonstrate your production and/or composition skills. You will be asked to perform **one** of the following:

- An original song or instrumental composition of your own, performed live by you to a backing track of your own making;
- An original song or instrumental composition of your own, performed live and accompanied by yourself.
- An interpretation of an existing song or instrumental composition performed and re-arranged by you (either performed live to a backing track of your own making, or accompanied by yourself).

You will be asked to produce some form of musical notation for the music you present, whichever option you choose. This might be either a score, a chord/melody chart, a rhythm chart, a lyric sheet, a part sheet, or some combination of these as appropriate.

If your second performance piece is an existing song (option c above), you will be asked to articulate the ways in which your interpretation/re-arrangement differs significantly and creatively from the original song or composition.
