Composition of Course and Delivery Methods

Undergraduate degree courses at Leeds Arts University are delivered and supported through a range of teaching and learning strategies. These are outlined [here](#). Courses are made up of modules, these are elements of study that are taught and assessed separately. Each module carries a clearly identified credit value, the accumulation of which will allow you to progress to the next level of the course. Around 100 hours of learning are expected for every ten credits of the course. Each level (year) of the course is made up of 120 credits and therefore requires 1200 hours of learning. Teaching is split over 2 semesters; each semester has 13 weeks of teaching and 2 weeks of assessment.

Methods of Assessment

100% coursework

Fees & Other Costs

Tuition Fees:

- Full-time Home Student £9,250.
Fees for undergraduate home students are regulated by the government and may increase by inflation each year.
- Full-time International Student £16,000
Fees for undergraduate international students will increase by inflation each year.
- For further information on fees and financial support [click here](#).

Other Costs:

Further costs of study are related largely to the costs of materials and depend very much on how individual students choose to respond to University briefs.

The costs below are the result of asking our students to state how much they spend during the year and creating an average, as such they are indicative only.

- Equipment and Materials

- Level 4 (First Year)

Module Related Costs - £100 (approximately)

- Level 5 (Second Year)

Module Related Costs - £200 (approximately)

- Level 6 (Third Year)

Module Related Costs - £400 (this is only a guideline, as costs of some level 6 modules are entirely dependent upon individual students' direction).

The University pays a contribution to the costs of materials each year of study along with a further payment at Level 6 to help prepare your portfolio and/or promote your work professionally.

- Computers and Digital Equipment

Teaching and learning are supported through access to some online events and learning materials. This might include visiting speakers or the chance to review lectures that have been recorded. The University also uses a Virtual Learning Environment (VLE) to support learning. There are a range of computer facilities across the University available to access Monday to Saturday including weekday evenings. If you are intending to buy a computer we suggest you wait until you start your course. You will quickly find out what you do and don't need. The Course Team will be able to offer you advice on what to buy and where to purchase it from, based on your creative needs and budget.

- Books, Online Subscriptions and Competitions

There is an extensive range of books, text and online resources available through our Library including access to WGSN the fashion trend prediction platform. There will also be opportunities to submit to national and international competitions and live projects as part of your course. These resources are directly related to your studies and highlighted in modules as you progress through the course. Throughout your time on the course, you may choose to purchase your own copies of key texts, subscribe to online networks and enter non-compulsory competitions. These may cost up to an additional £100 per year.

- Educational Visits and Offsite Activities

Educational visits to enhance your experience may take place throughout the course and can range from a visit to a UK conference, exhibition or gallery, to a European or international study trip. All trips requiring a student financial contribution are optional and costs will always be kept as affordable as possible. We do not guarantee that we will run international visits. The decision is made annually based on availability, cost and the number of students required to make the trip viable.
